## Education

### Emily Griffith Technical College (2021)

During this intensive 10 month web development program, I learned and applied full stack development and database management skills. Projects completed over this course include experience designing, building, maintaining, and debugging multi platform applications.

### CU Science Discovery Mountain Research (2016)

In this week-long research project I was selected to participate in, I worked in small research teams led by MRS researchers, collected and analyzed data, and presented results regarding disciplines such as ecology, geosciences, and climate science.
